

August 20, 2019

Dear Marc,

I wanted to take a second and acknowledge the positive decision we made to retrofit our Hanco MK18 press with your UV system.

We looked at competitive answers and ended up choosing your product. We are well pleased with the results. We have been running for several years at a high rate with no issues. The system works and performs as specified by you.

I appreciate the work and appreciate well thought out equipment and systems. We depend on that.
