Whom it may concern,

Since the installation of the Benford UV system onto our press in 2005, we have had hardly any problems with the system and the one that we did have was easily resolved by us following contact with Benford.

The system operates with very little need for maintenance and we have found it to be very reliable. It also cures as expected.

We have also found replacement lamps from Benford to be available at a very reasonable price.

Best Regards,

Managing Director
